SANTA SWAP

MERRY CHRISTMAS

MR. ANDERSEN

A heartwarming Christmas adventure for the whole family based on Norway's most beloved Christmas Story.

No one loves Christmas more than Andersen, and each year he devotes himself to give his family a perfect holiday. As we all know, the most important part of Christmas is Santa's visit, but this particular night nothing goes quite as planned: In a brand new Santa costume, Andersen falls on the slippery ice and goes downhill on a little sled carrying all of the presents, before he is crashing into Santa Claus himself. The two then decide to swap. Santa's family has never seen a real carpenter before, and the Andersen family is going to need a little of Santa's Christmas magic now that all of the presents are destroyed. Andersen will rediscover the reason why he loves Christmas, while his children are having a hard time trying to reveal the real Santa as a fake.
